

## InDesign–Exporting PDFs

### Marks and Bleeds

Our PDF Export Settings for InDesign use .125 inches for the Bleed amount and the Offset in the Marks and Bleeds section of the PDF Export dialog box.

After exporting a PDF verify you have .125 inches for Bleed and at least .125 inches for Margins.

#### Quick Start Guides

We have created a series of Quick Start Guides for Creative Professionals. Visit: [walsworth.com/quick-start](https://walsworth.com/quick-start)
